FINISH:

All **Sairex** sinks come with a uniform Glossy and Matt Finish that aesthetically enhances the elegant design of the sink bowl.

COATING:

To avoid sound, the undercoat is extremely important for any Stainless Steel sink. All **Sairex** sinks are coated to about 0.5 - 0.8 mm thickness with Asphalt - a material.

SOUND DEADENING PAD:

In addition to the Asphalt coating, a special sound suppression pad of 2mm thickness is integrated into the **Sairex** sinks to absorb excessive noise of the Utensils during use.

EASY TO CLEAN:

The inherent aseptic property of stainless steel makes the maintenance of **Sairex** sinks virtually effortless. They are hygienic and easy to clean.

EXTRA DEEP BOWL:

Sairex sinks come with extra deep bowls ranging from 8 to 10 inches making it sufficiently easy to accommodate large and heavy-duty vessels for cleaning.
